

GARB

Software Solutions

*Do you spend hours creating
your own databases?*

*Does 'off the shelf' software
not quite meet your needs?*

*GRB offer bespoke Windows
& Web Software Applications...*

Customer Management Systems

Database Development

Business Reporting, Data Control & Analysis

Accounting & Process Automation

Business Solutions & System Modifications

GRB Software Solutions was established in June 2005, providing professional and affordable software solutions to small businesses.

Being a small business ourselves, we understand the importance of a local service with a realistic cost.

“Bespoke software can perform a number of functions to make your work duties easier and faster whilst saving you money, increasing productivity and giving you the time to concentrate on what you do best... running your business!”

Whatever your business needs, call us:

Bespoke Software

Whether you are looking for an application to manage your customer data, control and analyse business information, automate a process, a business solution or just a simple database, we possess a wide range of knowledge and experience to provide you with the most suitable solution.

At GRB Software Solutions we specialise in Microsoft Windows applications, ASP.net web applications and Excel and Word VBA.

Our dedicated service provides you with full training and continued support. Making ourselves available through phone, email or a personal visit, we guarantee your satisfaction and peace of mind.

Project Management

With the help of qualified and experienced staff, we follow a structured methodology to ensure your development is expertly planned, organised, controlled and delivered as per your specification and budget.

From start to finish we work closely with you to encourage success in achieving the goals and objectives defined, giving you the software you want.

Web Design

If you are looking to promote your business, share information on a hobby or record your thoughts in your own blog, a website is an ideal solution in collating and displaying an array of data.

GRB Software Solutions can work with you to help design, create and host a personalised website.

Custom Desktop PC's

Assesing your personal requirements, we will provide you with professional advice and tailor a machine to suit your needs. We ensure that we consider all elements of your new purchase and then build your machine to the agreed specification and deliver direct to your door.

PC Repairs & Advice

We offer a comprehensive service to cover all major aspects of your computing needs, whether it's repairs or simply advice you are after. At GRB Software Solutions we make ourselves available to answer your queries no matter how simple or complex they may be.

Support

Software or hardware, we pride ourselves on the after sales support. A one-off call out, occasional consultancy or dedicated support contract, we make ourselves available, giving you the confidence you need when it matters.

*“Providing Professional &
Affordable Solutions”*
